*"Promoting Litter-Free Roadways Around the World"*

## IAAHA CONFERENCE CONNECT

TUESDAY, DECEMBER 8, 2009

### President's Address

**Denise Wallman, Nebraska Department of Roads**

*Greetings from the great state of Nebraska; where we're having quite the winter snowstorm.*

*It is certainly my privilege and honor to be a part of the International Adopt-a-Highway Association. As President, I am pleased to report that our Association is financially stable, strong, and active.*

*Like many other organizations, we too are experiencing a time of change. When I realized our conference was not going to happen this year, I voiced my concerns to the Board. With their enthusiastic co-operation and determination we put this webinar together. I know it's not quite the same as sitting together in a meeting room, but thanks to the wonders of the internet, we'll make this an opportunity... with-a-little-twist....to connect with each other once again.*

*The Executive Board utilizes conference calls for monthly board meetings. We continue taking care of business at hand, and hope that we may meet together in 2010.*

*As I see it, Association members remain dedicated to litter prevention in their respective states, provinces, and nations. All of us continue to confront issues affecting the environment and seek solutions that will help preserve and protect our beautiful world. As a member of our association, you are encouraged to share solutions that work for your program.*

*Let's begin this Conference Connect.....*
